VOLUME CVII.--NO. 30. ALEXANDRIA, VA., FRIDAY EVENING, FEBRUARY 2, 1906. PRICE 2 CENTS.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

It is now the accepted belief in the medical world that dandruff germs do not exist, either having been compelled by the fact that a person inoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in nine hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

HICKS FOR FEBRUARY.

The first period of the month, a reactionary one, will be in progress as the month comes in and on and touching the 1st and 2d the weather will become much warmer and a wave of cloudiness will pass over the country. These disturbances will not be severe in character but will be followed by much colder weather.

A regular storm period will be central on the 6th, extending from the 5th to 9th. About the 6th rains will set in in the east and south and snow will follow along the northern and western sides of the storm areas, resulting in rain storms succeeded by colder weather and snow storm progressing across the country from the 6th to the 9th. The crisis of this period will come about the 9th and will be characterized by very cold northerly winds, amounting almost to a blizzard, causing very cold, disagreeable weather from about the 9th to the 11th.

A reactionary storm period will be central on the 12th and 13th. At this time look for a great change to warmer weather, with sudden fall of the barometer followed by general severe atmospheric disturbances with thunder and rain to the southward and snow in the northern parts. A sudden, sharp cold wave will follow from the 13th to the 16th and from about this period to the close of the month.

The regular storm period extending from the 16th to the 20th will be central on the 17th. It will be characterized by a marked rise in temperature and storms of a decidedly tropical nature. During its first stages heavy rains with lightning and thunder will visit most sections in the south and central states, but sudden and violent changes to sleet and snow with blizzardous conditions from the northwest will develop in the latter stages of this period. Look for the crisis about the 17 or 19th, followed closely and of several succeeding days by a general and severe cold wave.

A reactionary storm period will extend from the 22d to the 25th and this period promises to be the most severe of month. About the 21st there will be a change to warmer weather in the western parts. The temperature will continue to rise rapidly as the warm wave advances eastward and the barometer will fall proportionately. By the 23rd high temperature for the season will have spread eastward to the central valleys, with a low barometer, and about the 23d to 25th violent and general storms of rain, wind and thunder will visit many sections as the storm centre moves across the country. While the front or eastern and southern sides of these storm areas are causing tropical storms with rain, thunder and gales, with possibly tornadoes, sweeping blizzards of snow and sleet will be rushing eastward on the western and northern sides of the same storm areas. Storms varying from tropical and tornadic to boreal and blizzardous are apt to be in progress at the same time in different parts of this country during this period and from this time until a day or two before the end of the month severe winter storms may be anticipated.

The month will end with a rising temperature in the west about the 27th and 28th, marking the beginning of a regular storm period which will be central on March 1st.

Policeman and Highwayman.

James S. Reynolds, a former member of the Baltimore police force, charged with burglary and a fugitive from justice, is now charged with a career of highway robbery in Baltimore. Yesterday morning it developed that Reynolds kept an old suit of clothes somewhere on his beat, and at intervals while on duty at night would doff his police uniform and don the the old clothes, and then deliberately hold up belated pedestrians who might be traversing his post and relieve them of their valuables. One case of this nature was traced to Reynolds Wednesday, when Patrick Lyons, of Brunswick, Md., a locomotive engineer, identified a pearl-handled knife taken from Reynolds when he was arrested on a charge of burglary. On December 25 last he reported at the Southwestern station that he had been held up and robbed of his gold watch and a plated chain with a locket and pearl-handled knife. Mr. Lyons said that he had been out Christmas Eve, and that while on his way home rather late he was confronted by two men at Pratt and Light streets, who asked him the time. When he pulled out his gold watch, he said, the two men knocked him senseless, and upon his recovery he found he had been robbed. Reynolds' connection with the Lyons hold-up was established through the finding among some of his effects of a pawn ticket for a watch which had been pledged by him for $10.

A Senator's Cure for Insomnia.

It is told of Senator Joe Blackburn, of Kentucky, that once in a conversation with a young lady it developed that both were subject to insomnia.

"What do you do for relief for it?" the young lady asked.

"When I retire," the Senator replied, "and find that I cannot sleep, I take a dram of some fine old Kentucky whisky that I keep near me for that purpose."

"Does that never fail?" queried the lady.

"Oh, yes," said the Senator, "but in that event I take another dram."

"Even the second might fail, Senator," she said.

"Yes, sometimes it does," said the Senator, "but if it does, I take another dram."

"And then?" with an interrogative accent and an arch smile.

"Oh! by that time," the Senator exclaimed, "I don't care whether I sleep or not."—Detroit News.

Nothing will relieve indigestion that is not a thorough digestant. Kodol Dyspepsia Cure digests what you eat, and allows the stomach to rest—recuperate—grow strong again. Startling But True.

People the world over were horrified on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia," W. D. WILCOX, Logan, New York. Sold by Gibson & Timberman and W. F. Creighton & Co.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING. FEB. 2, 1906.

CHICKENS come home to roost. The war begun by the Maryland legislature against the Baltimore & Ohio Railroad bids fair to cost that company hundreds of thousands of dollars. A resolution will be introduced in the Senate providing for appointment of three attorneys to take action against the railroad. This board will prosecute the claim of the State with reference to 5,500 shares of stock in the Washington branch. This will be followed by a joint resolution directing the enforcement of the law compelling the Baltimore & Ohio to pay in taxes 2 per cent. on its gross receipts in lieu of half of one per cent., as now, the contention being made that the charter of the company has been amended, and under a decision of the Court of Appeals it is now amenable to the law imposing a higher tax. A commission will subsequently be appointed to determine whether the railroad company can be compelled to pay back taxes amounting to an enormous sum. Virginians have no sympathy for the B. & O. road and hope it will be made to pay the last farthing it owes. It was this railroad, which, after the war, when Virginia had been robbed of one-third of her territory, despoiled her of two more of her counties, Jefferson and Berkeley, because Mr. John W. Garrett, the president of the road, wished to avoid the payment to Virginia of the just amount of taxes due this State by his railroad. Yes, chickens come home to roost.

IT SEEMS that a determined effort is to be made to have an extra session of the Legislature. A dispatch sent out from Richmond says:

An extra session of the Legislature is likely to be called at the close of the regular session. For several days the older members who have experienced the work before have recognized the difficulty of disposing of the immense volume of business already developed in the five weeks that now remain of the session. Under the law, the session cannot be extended except without pay to the members, and Governor Swanson will likely be petitioned for an extra session.

Then let the session be extended by the members without pay and it is dollars to doughnuts that it will last but a few days and the "immense volume of business" will dwindle into insignificance. The regular session is not yet half over and if the members would talk less and work more, they could easily get through with all needed legislation by the time of the regular adjournment. Should Governor Swanson call an extra session, it would be a very serious mistake and he is not given to making mistakes. An extra session would cost fully $35,000 and no one believes that the State would be compensated for such an expenditure by any action of the Legislature.

AT THE special meeting of the Richmond common council Wednesday night the report of the gas investigating committee, which had been working on the gas question in that city for several months, was handed in by the chairman. After showing what it considers the shortcomings of the present management of the gas works, the committee strongly recommends that the gas works be leased to a private company. The most important defects of the city management shown by the committee are:

That the gross cost of manufacturing gas is not properly calculated and reported.

That the pressures in the street mains are not properly regulated, which is due either to ignorance of the management or want of proper instructions to the men under whose care the regulating valves are left.

That the management pays no attention to the large number of complaints which are made.

That the management has been neither efficient nor farsighted.

The report closes with a recommendation that the gas works be leased, and points out the advantages of such a lease. This is a pointer for the few members of the Board of Aldermen of Alexandria who favor municipal ownership of the electric light plant. Experience shows that cities had better not enter into manufacturing enterprises.

REJECTION of the counter-proposal of the coal operators of the central competitive district by an almost unanimous vote of the national convention of the United Mine-workers and the adoption of a resolution offered by Secretary Ryan placing the miners on record as a unit in refusing to sign an agreement for any district until an agreement was signed for all districts under the jurisdiction of the United Mineworkers, yesterday in Indianapolis, created a situation which in the opinion of the officers of the miners' organization will result in a disruption of the joint agreement and possibly a great strike of forganized labor throughout the country. Immediately following the rejection of the operators' proposal the miners' convention set about to provide means for accumulating a strike fund of $6,500,000. The failure of agreement between the mine owners and the miners will be regretted by every one who remembers the great coal strike of 1902 and the suffering it brought about. There surely must be some way to prevent a recurrence of such a strike.

A NEW anti-semitic daily newspaper will be founded in Berlin on April 1 to promote the most extreme policy of Jew-baiting. The programme which the supporters of the paper will advocate calls for the prohibition of all political, social, commercial or intellectual intercourse between Jews and Gentiles, the confiscation of all Jewish property in Germany, and eventually the expulsion of all Jews from Germany. The founder of the newspaper is Ernest Vergani, leader of the anti-semitic movement in Austria. Continental Europe seems to be a long time in emerging from the prejudices of the dark ages.

THE COLD WAVE which invaded this section last night spread over a wide area of the country. The mercury this morning at 7 o'clock stood at 20° in most thermometers in this city, while in others it was 1° lower. In parts of New York State it was from 15° to 20° below zero. The ground hog shivered when it crawled from its quarters this morning. Its shadow and the breath of the Frost King caused it to make a hasty return to the place from which it came, to spend another six weeks of seclusion.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Feb. 2.

The President today pardoned Midshipman John Paul Miller, of Kentucky, member of the first class at the Naval Academy, who was convicted by court-martial recently of countenancing hazing. The pardon is granted in accordance with the recommendation of Rear Admiral Sands, superintendent of the academy, and the approval of the Secretary of the Navy.

The Isthmian Canal Commission with its full quota today continued the consideration of canal plans recommended in the majority and minority reports of the advisory board of engineers. The commission's report will probably be sent to Secretary Taft the first of next week.

Advices from the isthmus received at the canal office today show that the fire which visited Panama Wednesday caused damage amounting to $350,000, made 400 persons homeless, of whom twenty-five were American employes. No lives were lost.

Attorney General Moody has notified the National German-American Alliance that he has forwarded to the Postoffice Department the complaint of that organization that Rev. Wilbur F. Crafts, of this city, superintendent of the International Reform Bureau, is illegally using the frank of Senator Gallinger in sending matter through the mails. The Attorney General informs the officials of the organization that the Postoffice Department will pass upon the question and apply a remedy if it is discovered that the franking privilege has been abused. Postmaster General Cortelyou has the matter under consideration. He recently excluded from the mails somewhat similar franked documents.

Reduced to the extremity of keeping within equal appropriations for the current fiscal year, the Navy Department is slashing into its expenditures right and left. Last week orders were issued reducing by 44 per cent. the force employed by the bureau of steam engineering in ten navy yards. This bureau had planned to incur a deficiency of $1,000,000 in the last seven months of the present fiscal year. Now the bureau must not only keep within the original appropriation, but before June 30th must put under its regular allotment the $380,000 it has already overreached. Orders have also been issued for a curtailment of force by the bureaus of construction and repair, equipment and ordnance to meet the decreased rate of work in the steam engineering department. The fact of the matter is that naval expenditures have been practically unbridled since the Spanish war. The sum asked for the fiscal year of 1906 and 1907 is $120,000,000. In private yards where merchant ships are repaired, the work is done at far more reasonable prices, and the merchant steamers seem to display less wear and tear than the ships of the navy. The outcry aroused by the big cuts in navy yard forces is being heard by representatives and senators. In fact the sudden great reduction is continued in some quarters as a clever move by the Navy Department to bring public attention to the effect of what one naval officer called the "penurious parsimony of Congress toward the navy." Naval officers have been charged with considering the navy as having a prior lien on government funds. The fact that one cruiser is obliged to stay in a navy yard two weeks longer than had been planned, owing to lack of funds to "rush repairs" on her, is advertised as being a menace to the safety of the country. As a matter of fact once a ship goes into a yard for real repairs—it is not infrequent by the practice practically to rebuild her. For instance, a vessel was recently sent home for repairs which a board of survey estimated would cost $26,000. Before the ship went to sea again the various bureaus had discovered work to do on her which aggregated in cost $640,000. This lee way in "repair work" enjoyed by the navy department, it is charged, enables officers to expend immense sums of money with a blanket congressional appropriation as a check on their activities. Congress has to appropriate the money for a brand new ship and the contract is let according to law. The bureau officers "allot" sums almost as large for rebuilding with only clerical procedure. The House committee on naval affairs has put a big dent in this practice by refusing the $1,000,000 deficiency.

A resolution introduced today by Representative Sulzer of New York, requests the Attorney General "if not incompatible with the public interests to inform the House when the government executed the deed for the custom house property in Wall street, New York City, to the National City Bank, where the deed is at present, in whose custody it has been since execution, and why the deed has never been recorded." In a statement explaining the resolution, Mr. Sulzer says: "This entire custom house transaction is one of the most scandalous pages in the history of this government. Lyman J. Gage, formerly Secretary of the Treasury, made an agreement with the National City Bank by which the bank purchased the custom house property for $3,265,000. Real estate men in New York City, say that the property is worth at least ten millions. The Bank, however, never actually paid the government a dollar for this property."

The Senate committee on interstate commerce today agreed that on next Friday they would take up the question as to what railroad rate legislation they should recommend, and hold daily sessions until the following Friday, February 16, when a final vote should be taken. The Hepburn bill, now pending in the House, and which will be passed by that body next week, will be the basis of the Senate committee's discussion and action.

Representative Landis, of Indiana, chairman of the joint committee on printing, appointed by the House to cut down the printing bills of the various departments, had a conference with the President and afterwards said that in round numbers the committee had already brought about a saving of a million dollars. Before the committee is done with the subject, Mr. Landis said, the saving throughout the departments would be much larger.

In accordance with the resolution passed by the House yesterday Director North, of the census bureau, reported to the House today that the ginners' estimates of cotton remaining unginned on January 16, as collected by the bureau, aggregated 250,884 bales. According to the report only about one-half of the ginneries have reported. Speaker Cannon refused to have anything more to do with the cotton report than the rules absolutely required. He would not announce the figures from the chair. The report went to the clerk and was by him carried over to the room in which executive documents are received. He was followed by a big crowd of newspapermen and some members of Congress, who are interested in the cotton market.

Admits She is Married.

New York, Feb. 2.—All doubts regarding the marriage of Mrs. Chas T. Yerkes, widow of the traction millionaire, to Wilson Mizener, the young Californian, were removed today. Mrs. Mizener, as she may now be called, admitted that the marriage had taken place on the evening of Tuesday, January 30. The only reason for the misapprehension on the subject, it appears, was the desire of Mrs. Mizener to keep the fact of the marriage secret for ten days or so. Mrs. Mizener's admission of the fact was gained just before noon, following the entry of her husband into the Yerkes mansion, to take up his permanent residence there. Rev. Dr. Andrew Gillies, who married the couple, filed today in the bureau of vital statistics, the certificate of marriage. The document certifies that "Wilson Mizener and Mary Adelaide Yerkes were united in holy matimony, according to the laws of the State of New York, on the 30th day of January, in the year of our Lord, one thousand nine hundred and six, at New York." The paper is signed by F. K. Walter, secretary to Mrs. Yerkes, now Mrs. Mizener, and Joseph T. Eastland, both of whom witnessed the ceremony. In answer to questions about misunderstanding regarding the marriage, Mr. Mizener said it was the intention of Mrs. Mizener to keep the fact of the marriage from the public for ten days or more, and that they cannot understand how the news of the wedding leaked out.

THE LEGISLATURE.

Nothing of importance was done in either branch of the General Assembly yesterday, the greater portion of the time of the members having been taken up with the joint session, before which the inaugural ceremonies took place.

The House did nothing save to receive from Governor Montague the report of the second auditor with reference to the management of the Miller school fund, and to pass a resolution touching the death of the late Senator Garrett, and ordering flowers for his funeral.

The Senate passed a like resolution and appointed a committee to attend the funeral. A few bills were offered in the upper branch, but they were not of sweeping interest.

Practically nothing was done at the half-hour session of the Senate in the way of business. The body was called to order at 11:30 oclock and announcement was at once made of the death of Senator H. L. Garrett, the republican member from Covington. Suitable resolutions were adopted. Several committee reports were received and a number of new bills were introduced.

After the joint session the Senate reassembled, received its new presiding officer, Lieutenant-Governor Ellyson, and then adjourned out of respect to the memory of Senator Garrett.

Bills were introduced in the Senate:

To legalize the adoption of adult persons.

To amend section 185 of an act in relation to salaries, mileage and allowances.

To prevent adulteration in the manufacture and sale of intoxicants. The act provide that whoever adulterates for the purpose of sale, any spirituous, alcoholic or malt liquors used or intended for drink or medicinal purposes, shall be guilty of a misdemeanor, and shall be fined not exceeding $200 for the first offense, and for each subsequent offense not exceeding $300, or be confined in jail not exceeding one year, or both.

To amend section 2105 of the code, relating to dams and fish ladders.

To amend section 2 of an act to aid the citizens of Virginia who were disabled by wounds received during the war between the States while serving as soldiers and sailors of the State.

Reception in Richmond.

The informal reception held by Governor Swanson at the Executive Mansion in Richmond yesterday afternoon, though quiet, was approaching an ovation and as a political assembly it was noteworthy. Mr. Swanson's ardent supporters from all over the State gathered to do him honor and the men who led his splendid fight last fall were gathered for a time of rejoicing over the victory. The reception was entirely informal and for two hours a stream of people passed in and out of the home, each giving the new Governor a word and a handshake.

The reception tendered Governor Claude A. Swanson last evening from 8:30 to 11:30 by Lieutenant-Governor J. Taylor Ellyson, in the elegance of its appointment and in the prominent men it assembled, was indeed a notable event.

At the Ellyson home, No. 10 east Franklin street, the Virginia and United States flags were conspicuous features of the decorations. Floral adornment, against palms and greenery, was pink in the dining room and crimson in hall and parlors. The music, lights and large company rendered the scene extremely brilliant. Among the guests present were Governor Montague, the members of the Legislature and State officers, all former Governors and Lieutenant-Governors of Virginia now living and a large number of people from all over the State.

All Officers Qualify.

All the State officers elected on the ticket headed by Governor Swanson took office yesterday. The only one not succeeding himself, however, was Superintendent of Public Instruction Joseph D. Eggleston, jr. Mr. Eggleston qualified before Judge John A. Ingram, of the Law and Equity Court, and at once took charge of the education department in the old Marshall House.

Commissioner of Agriculture Koiner also qualified before Judge Ingram, while Attorney-General Anderson and Treasurer Harman qualified to succeed themselves before some other judge.

President's Reception.

The third reception of the season, given to the members of Congress, was held at the White House last night.

In the Blue Room were assembled those who were invited to assist, many members of the diplomatic corps, and their coterie of friends. In the East Room were to be found men and women from the North and South, from the East, that boasts of its intellectual attainments, and from the strenuous West, where so many enterprises are successfully inaugurated.

The President and Mrs. Roosevelt, accompanied by the receiving party, entered the Blue Room promptly at 9 o'clock and took their stations in the bay window, following the custom of years.

Mrs. Roosevelt wore a magnificent costume of blue brocaded satin, with diamond and pearl ornaments; Mrs. Fairbanks' costume was of gold-spangled net over white satin; Mrs. Shaw was in a gray chiffon; Mrs. Cortelyou wore a becoming frock of white lace over silk, and Mrs. Metcalf a gown of white satin trimmed with ermine.

Today's Telegraphic News

The Legislature.

[Correspondence of the Alexandria Gazette.]

The finance committee of the House today reported the Caton bill doubling the appropriation for primary schools, making it $400,000.

The roads committee took up all bills relating to railroads and several railroad presidents were present.

The Ould bill to prevent the running of freight trains on Sunday will come up this afternoon.

Priests to be Prosecuted.

Paris, Feb. 2.—The government has decided to prosecute the priests who took part in the disorders caused by the efforts to resist the taking of inventories of the plate and valuables of the churches under the terms of the law for the separation of church and State. The advisability of calling a high parliamentary court to try those who were arrested for resisting to the authorities has even been discussed, although the measure has not been decided upon.

Paris, Feb. 2.—The authorities forced their way into the church St. Pierre in the Rue St. Dominque this afternoon for the purpose of taking the required inventory of the church valuables Firemen assisted in battering down the doors. Members of the congregation inside offered bitter resistance, and there was hand-to-hand fighting. A number of persons were wounded and many arrest were made. Rioting occurred outside the church as well, and troops repeatedly charged on the crowds. A fire hose was likewise turned on the mob. Ten of the persons wounded during the rioting at St. Pierre's church were seriously hurt. Twenty arrests were made in connection with the disturbances there. Two of the participants in the church riots yesterday were tried and found guilty today. One of the defendants was sentenced to two months' imprisonment and the other to two weeks in prison.

Rome, Feb. 2.—Pope Pius has telegraphed to the French episcopate advising the Catholics of that country to submit to the taking of inventories by the government of the church property. The Pope deplores the scenes of violence and exhorts trust in God.

The Moroccan Affair.

Berlin, Feb. 2—The Foreign Office has authorized a statement to be made that the German government contemplates the termination of the Algeciras conference on Moroccan affairs hopefully, although the conference has hardly produced a final and definite solution of the Moroccan question. The German government, nevertheless, is convinced that the result will be a general agreement among the powers, which will prevent Morocco from being a menace to the peace of the world.

Paris, Feb. 2.—In addition to insisting upon the recognition of her privilege of police supervision in Morocco, by the internation conference now in session at Algeciras, France has decided to demand the maintenance of other privileges she has enjoyed there. France is willing to allow the conference at Algeciras to break up and have the status quo in Morocco maintained rather than yield her privileges. The view is taken here that France's position would be preferable under this arrangement, since all the nations would continue to be treated in Morocco under the terms of the Madrid convention. Germany, individually, would then have to take the responsibility of making the first move in a new direction.

Constantinople, Feb. 2.—The Porte has made representations to Berlin seeking a promise that Germany will protest Turkish interests if Italy should introduce the question of extending her influence in Tripoli at the Algeciras conference.

The Cold Wave.

Malone, N. Y., Feb. 2.—After a month of almost summer weather, a cold wave struck here last night, the thermometer dropping fifty degrees. This morning at eight o'clock it is fifteen below zero.

Ogdensburg, N. Y., Feb. 2.—The thermometer registered twenty-one degrees below zero here today.

New York, Feb. 2.—As the result of the fall in temperature of nearly thirty degrees since yesterday afternoon, winter clothing, so long useless, has become seasonable. At nine o'clock this morning the mercury registered 17 degrees above zero.

Rochester, N. Y., Feb. 2.—The coldest weather of the winter is being experienced in Rochester and vicinity today. At the United States Weather Bureau early today the mercury was two below zero, and in the surrounding towns from four to seven degrees below zero was registered.

Saratoga, N. Y., Feb. 2.—Today's cold wave is favorable for the ice crop. At nine o'clock, the mercury dropped to zero. Towns in the lower Adirondacks report from 3 to 5 below zero.

The Late King Christian.

Copenhagen, Denmark, Feb. 2.—The health of the Dowager Empress Maria-Feodorvna of Russia, daughter of King Christian, is giving her relatives a great deal of anxiety. The Dowager Empress has been completely overwhelmed with grief on account of the death of her father and she was not even able to attend the death mass for King Christian held at the Russian Church. One curious fact in connection with the death of King Christian is that the people of Greenland who were subject to the late King, will not be able to learn of his death for at least three months. The Greenlanders will have celebrated King Christian's birthday on April 8, before they are informed of his death and the ascension of King Frederick.

London, Feb. 2—Queen Alexandra daughter of the late King Christian of Denmark, left here this morning for Copenhagen to attend the funeral services over the remains of her father. King Edward, the Princess Victoria, the Danish Minister and a number of other notables were present at the departure of the Queen.

Attempt to Wreck a Train.

Wilkes Barre, Pa., Feb. 2.—An attempt was made to wreck the Pennsylvania flyer at Nescopeck last evening by opening a switch. Boys saw two men tampering with the switch and notified the track walker, who hurried to the switch and closed it a few minutes before the train was due. The open switch would have thrown the flyer into several cars standing on a siding and an awful wreck would have resulted. Detectives were at once notified and two young men of this city, John McAvoy and Martin Golden, were arrested and committed to jail on a charge of trespassing. They were identified by the boys as the men seen tampering with the switch.

The Market.

Georgetown, Feb. 2.—Wheat Quiet.

Miners' and Operators' Conference.

Indianappolis, Ind., Feb. 2.—The joint conference of miners and operators today entered into the stormiest session of its existence. The session was late in convening, but the interest manifested when it did meet, was intense. There was almost two hours of dramatic discussion during the morning, in which the operators leader Robbins and John Mitchell, President of the Miners took the leading parts. Robbins said: "I want to go on record in this closing of a movement with which I have been connected many years." He said the operators had done all they could in their offer to renew the present scale or to base a settlement on the selling price now and two years ago. "It there was ever an unlawful combination in this country, it was formed in your meeting yesterday," he said to the miners. "What trust can compare with your action?" Replying to Robbins, Mitchell said: "It seems now that there is nothing left for us to do but to go home and to do the best we can to overcome the seeming insurmountable obstacles."

The scale conference between the miners and operators was dissolved today and the convention adjourned sine die. Unless something unforeseen happens in the meantime to change the situation, there will be a general strike of the United Mine workers of America April 1.

Murderer Hanged.

Washington, February 2.—With a quartette on the scaffold singing "Jesus, Lover of My Soul," William W. Hamilton, colored, was hanged at the District jail at 7:02 a. m., as the penalty for murdering his common law wife, June 20, 1904. All night the prisoner was reading the Bible and writing articles for Methodist papers. The prisoner was confined in the cell occupied by Guiteau, the assassin of President Garfield, and was hanged on the same scaffold Guiteau paid the penalty for his crime. Hamilton choked his wife to death. He asked to be hanged when arrested, and always protested that his lawyers did not treat him right in not allowing him to plead guilty.

Schooner Ashore.

Norfolk, Va., Feb. 2.—The three-masted schooner Maggie S. Hart, Capt. G. T. Fisher, from Wilmington, N. C., to New York, lumber laden, went ashore four miles south of Hatteras at one o'clock this morning Captain Foster and the seven seamen aboard were rescued in surf boats by Captain Barnett and his men from Hatteras Inlet life saving station. The schooner is well off the beach and appears to be in good condition. Captain Foster says his ship got out of her course because he lost his reckoning.

Pythian Convention.

Mechanics Lodge No. 3, K. of P., met in regular convention in their castle hall on south Fairfax street last night, and the following officers occupied the chairs: Oscar F. Baggatt, C. C.; R. N. Roland, V. C., Ernest R. Boyer, Keeper of Records and Seal (pro tem.); C. M. Hancock, M. of F.; G. W. Bontz, M. of E; V. C. Moore, Prelate (pro tem.); C. R. Herbert, M. at A; G. W. Bontz, I. G. (pro tem.); J. M. Wells, O. G. Under good of the order remarks of interest to the fraternity were made by several members. Past Grand Representative Ernest Boyer referred to the proposed meeting of the Tide water Pythians this month at Norfolk, at which time it is reported several of the Supreme lodge officers will be present. P. C. Bontz having been appointed as committee on good of the order, suggested that at the close of the meeting something was in store for the members. After the lodge adjourned those present repaired to the Opera House Cafe where oysters fried, stewed, Lynnhaven Bays on half shell, and Cherrystone clams were served in a most delicious manner by the genial and popular host, Mr. L. Brill. The meeting of the grand lodge of Virginia to be held at Staunton in May is looked forward to with a great deal of pleasure by some of the members of this lodge. P. G. R. Boyer predicts the coming convention to be one of the most important in the history of the grand lodge.

Incendiary Fires.

The number of incendiary fires in Alexandria during recent years has naturally caused alarm, although in most cases but little damage has resulted from the fact that the fires have been discovered before they attained dangerous headway. On Wednesday night two fires were started within a period of about three hours. The first was an evident attempt to burn one of the ware houses of E. S. Leadbeater & Sons in the square bounded by King, Prince, Lee and Union streets. Fortunately the incendiary started the fire at a point where a brick pillar confined the flames and prevented their spread. As will be seen by an advertisement, the Messrs. Leadbeater offer a reward of $100 for the apprehension and conviction of the incendiary. The other attempt to start a conflagration was made in a stable in the southwestern section of the city between 11 and 12 o'clock. Had the fire attained headway considerable damage would doubtless have resulted to the numerous frame buildings in the neighborhood. These incendiary attempts, following so closely in the wake of a horrible murder, and the fact that the participants in neither have been brought to justice, causes no little impatience among law-abiding people.

A Lower Death Rate.

The year 1905 was a very healthy one for Alexandria if the deaths in proportion to population are a fair index The deaths among the whites were decidedly lower, for in 1904 they numbered 203 and last year only 171. At a glance this showing is gratifying. There was also a slight decrease in the deaths among the colored people, as in 1904 they numbered 142 and the past year 137. However, the death rate among the colored is from 14 to 16 per thousand greater than among the whites, and this appears to be the case in all the cities. The records for January, 1906, are also gratifying, for the deaths number only 18 divided equally, 9 whites and 9 colored, one white being an accidental death. This is certainly the lowest death rate in January since a record was kept, for in 1903 the number was 36; in 1904, 27 and 1905, 24. A matter worth mentioning, gleaned from the 1905 record, is, that not one among the males who died had reached the age of eighty, and only five were between the ages of 70 and 90, while 11 females were between these ages and also 11 females between 80 and 92, the average being 85 years for the last mentioned.

School Board.

At the monthly meeting of the City School Board held last night there were present: Capt. Herbert Bryant, chairman, and Messrs. Thompson, Stabler, Yates, Bradshaw, Carne, Boothe and Carter.

Mr. Stabler reported that the only work done on the buildings since last meeting, was some glazing.

The chairman stated that the Superintendent, who was confined to his home by sickness, had informed him that he had no business of importance to present to the board at this meeting.

A letter from Miss Emma H. Seaman, of West Fal's Church, making application for the position of teacher of music in the schools, was referred to the Superintendent.

The clerk was authorized to issue a second permit to the daughter of Mr. Frank Lucas, provided all the regulations were complied with.

The new bond of the City Treasurer was referred to the finance committee.

The New Ferry Steamer.

Work on the new ferry steamer is said to be progressing rapidly at the Harlan & Hollingsworth works at Wilmington, Del., and the Norfolk and Washington Steamboat Company expects to have her on the route about May 15. The shipbuilding company expects to launch the new boat about the middle of March, and will push her to completion in order to have her ready for service by the time stated. As has heretofore been stated, the new steamer will be named "Callahan," in honor of the general manager of the Norfolk and Washington Company. The young daughter of Mayor Frederick J. Paff, of this city, has been invited by the Norfolk and Washington Company to christen the new vessel, and the invitation has been accepted.

Death of Mrs. Buttimore.

Mrs. Ellen Buttimore, widow of Dennis Buttimore, died at her home, 112 north Patrick street, yesterday afternoon. The deceased was 72 years of age. Her funeral will take place from St. Mary's Church tomorrow morning.

Personal.

Judge Barley, of Alexandria, who has been holding court in this place for Judge Nicol, who is in Richmond, has sustained his well earned reputation as a jurist and has grown on the people generally in his kind and affable way. —[Warrenton Virginia.

By direction of the President, Surgeon James D. Gatewood of the navy has been detailed as a member of the joint army and navy medical board, appointed to consider improvements in the first-aid dressings and uniformity of equipment for the medical departments of the two services, vice Surgeon Charles F. Mr. and Mrs. Geo. W. Keys have returned from their wedding trip through the South.

Mr. T. F. Ellis, of the Mt. Verson station in Washington, has returned from his trip to Ohio, where he was called on account of the serious illness of his father. In a letter received today it is learned that his father is rapidly regaining his health.

Among those who attended Gov. Swanson's inauguration yesterday was Miss Grace Anderson, of this city.

The May Hillman Company.

The May Hillman Stock Company continues to draw good-sized audiences to the Opera House, and every one seems to be pleased with the shows. Last night the company presented the farce-comedy "The Circus Girl," in three acts. The comedy was a laugh from start to finish, and was full of ludicrous situations. Miss Hilman played the part of the circus girl in her usual good manner, and was ably supported by Jack McKnight as the dude. Mr. George Rosener interpreted the part of Arthur Hummingtop in an excellent manner. Tonight the attraction will be "Fanchon the Cricket," with new specialties and songs. Tonight will also be "amateur night," and a number of Alexandrians will present specialties after the regular performance. Two prizes will be awarded to the winners. A matinee will be given tomorrow evening at 2:30 o'clock.

Jr. O. U. A. M.

Alexandria and Belle Haven Councils, Jr. O U. A. M., will hold a public meeting for men only on next Tuesday evening, February 6th, for the purpose of bringing before the citizens of this community the objects and principles of their organization. The principal speaker will be Hon. Jesse Taylor, Mayor of Jamestown, Ohio, Junior Past State Councilor of Ohio and Secretary of the National Legislative Committee. The admission will be by ticket only, which can be procured from any member of the order.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Harry Sims, arrested by Officers Ferguson, Garvey and Bell charged with assaulting and beating John Sims, resisting the officers and threatening to burn the house of one of them and to kill his wife, has his case continued.

Milton Washington, colored, arrested by Lieutenant Smith charged with assaulting and beating Olive Botts, was dismissed.

The Baptist Church.

The meeting at the First Baptist Church is steadily growing in interest and results. Dr. Blackwell is preaching with great pungency and power. Much interest was manifested last night, and the large congregation was reluctant to leave. The music was wholesouled and inspiring, especially the "Glory Song." There were fifteen profession of faith, and eleven were received for baptism. The meeting will be continued tonight and over Sunday.

Ground Hog Day.

Today, February 2, is Ground Hog Day, and, according to prophesy, if the ground hog sees his shadow today he returns to his hole and winter will continue for six weeks longer. As the sun has shown all day, there was nothing to prevent the hog from seeing his shadow, so a continuance of the winter may be expected. This has been one of the coldest days of the year, the mercury at noon registering 22°.

Candlemas Day.

Today is the Feast of the Purification of the Blessed Virgin, a holy day of devotion in the Catholic Church. The day commemorates the time when, according to the Jewish custom, the infant Saviour was taken by His mother and St. Joseph to the temple where a sacrfice of two turtle doves was offered. Services appropriate to the day were held at St. Mary's Church.

Property Sales.

Douglass Stuart, commissioner, has sold to Stonewall J. Irby a house and lot on the north side of King street between Alfred and Patrick.

J. D. Lannon has sold to J. A. Lannon a house and lot on the north side of Cameron street east of Pitt.

Colder Weather.

The mild weather of the past few days was followed last night by decidedly colder conditions, accompanied by a high northwest wind. The mercury at 7 o'clock this morning stood at 20°. The temperature today has been seasonable with a clear sky.

Murder in Norfolk.

The murdered body of Walter P. Dolsen, aged 26 years, discharged from the United States Marine Corps at Norfolk Saturday last, after an honorable service of five years, was yesterday found packed into a trunk, which had been purchased by the supposed murderer following the commission of the crime.

Charles F. Taylor, aged 23 years, with whom Dolsen had been rooming at a Norfolk lodging house, where the murder occurred, has fled. He is charged with the crime, and the police are now bending every energy to capture him. Robbery is supposed to have been the motive for the crime, as Dolsen had considerable money when he left the marine barracks, and all of his money was gone yesterday.

At midnight last night the police admitted that they have not the slightest clew to the whereabouts of the murderer.

The murder of Dolsen is one of the most brutal crimes in Norfolk police annals. While the murdered man slept his slayer struck him in the head with a hatchet, and packed the body in a trunk. While the wife of the landlord of the lodging-house was straightening up the room in which the murder occurred, Taylor was present and readily explained that Dolsen was outside with two girls, and was afaid to come in as he had caused so much damage by his nose bleeding, thus explaining the presence of the blood on the bed clothing.

The woman noticed that the sheet was missing and the mattress of the bed was saturated with blood, but her suspicious were not aroused until she discovered blood leaking from the trunk when she attempted to move it. She then notified the police, and Dolsen's body was found in the trunk with the missing sheet and a pillow, on which his head lay when he was killed.

Dolsen was from Bremerton, Wash., where he enlisted in the navy, and to which place he intended returning to visit his people.

Death of Mrs. Pilcher.

A little more than a year ago it was our pleasant duty to publish the marriage of Mr. A. F. Pilcher and Miss Inez Latham. The world must have looked very bright to them, as each was in character according to the highest models of their respective sexes. To day we have to tell of her death, and the shadow which it has cast over the home made beautiful with her watchful care. Besides her husband she leaves an infant a few days old. Death to the young and hopeful is always sad, but "to the mother, when she feels for the first time her first born's breath," it is unutterably horrible. Time is its only consoler and healer.—[Warrenton Virginian.

Once Enough.

Representative Longworth was in his seat in the House yesterday and he declared he and Miss Alice Roosevelt will take no more shopping trips together before they are married. He finds courtship with 80,000,000 people looking on too strenuous. "It's all well enough to be in the public eye," he said, "but to be hunted like a new specimen of butterfly by men with cameras and women with lorgnettes is a little bit too strenuous to be thoroughly enjoyable. Once was enough for me."

Free Patients

"A bill to provide for the expense of removing, supporting and maintaining insane persons was passed. The measure exempts the property of the insane and puts the entire burden on the commonwealth."

Ought bills passed by our legislature, obligating the taxpayers to take care of any class of persons who have property, or whose friends are able to take care of them, be allowed to become laws? It is wrong, and the governor of the State should veto any such bill.

As it is—in one institution at least—either the appropriation is too small or else it is badly managed, and the patients neither receive proper food nor attention.

Besides, such bills only encourage people who are mean enough—and there are some—to keep relatives in such institutions longer than it is necessary, so that they may have the use of his or her income for themselves. It is all right to take care of the insane poor, but for the taxpapers to be obliged to take care of people who have property, to say the least, is preposterous. I hope something will be done in the matter, and if there is so much money, see to it that those who need it are better taken care of.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, she has been advising sick women free of charge.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

FRIDAY EVENING, FEB. 2, 1906.

Attacks United States.

The Koelnich Volks Zeitung, of Berlin, the organ of the clerical centre party, the greatest political power in Germany and the strongest party numerically in the Reichstag, recently contained an article denouncing what it calls the interference of America in Morocco. If the United States proclaims the Monroe doctrine in the western hemisphere, it says, Europe must proclaim a similar doctrine in the eastern hemisphere. America's demand for the open door in Morocco is hypocritical, as America has suppressed the open door in the Philippines, Porto Rico and Panama. The fact that the United States is supporting Germany in Morocco is outweighed by the danger of American interference in European affairs. The European powers ought to combine to exclude America from affairs which are purely European, but, instead of doing so, the powers compete with one another in paying homage to the United States.

Vented Spite on Longworth.

One of the Pennsylvania Congressmen is still very angry against President Roosevelt because of the removal of William S. Leib from the Sub-Treasury at Philadelphia. A few days ago there was a banquet at the Arlington, in Washington, at which this Congressman and Nicholas Longworth were among the guests. The Congressman imbibed freely, and when he was called on to speak he arose with a determination to air the wrongs of Leib. In the middle of the first sentence of his speech, however, he spied Longworth sitting across the table. The result was that his speech began like this: "In these days of strenuous administration and spectacular civil service reform (an awkward pause followed by a nod in the direction of Longworth) I don't think much of your father-in-law."

Ely's Cream Balm releases the secretions that inflame the nasal passages and the throat, whereas common "remedies" made with mercury merely drive them out and leave you no better than you were. In a word, Ely's Cream Balm is a real cure, not a delusion. All druggists, 50c, or mailed by Ely Bros., 56 Warren street, New York.

OFFICIAL.

ATTENTION IS CALLED to a portion of an ordinance in effect April 11, 1902, which reads as follows:

Section 2. Be it further ordained, that ashes and house waste as hereinbefore defined, and when unmixed with other matter, shall be removed from dwellings, stores, offices, hotels and churches at the expense of the City Council and under the direction of the Committee on Streets and the City Engineer; provided that owners or occupants of the premises shall put the ashes and house waste in tight, strong boxes, barrels or receptacles which can be handled by one man (the capacity of said boxes, barrels or receptacles not to exceed thirty (30) gallons each or the size of an ordinary flour barrel) and place the same in the most accessible place on the premises and not exceeding thirty (30) feet from the street or alley.

Attention is also called to a portion of an ordinance passed at the same time, which reads as follows:

Section 1. Be it ordained by the City Council of Alexandria, that it shall be unlawful for any person, firm or corporation to throw, deposit, scatter or leave, or cause to be thrown, deposited, scattered or left, any ashes, house waste, rubbish, litter, vegetable matter, garbage, paper or refuse of any kind, or any dead animal or putrescible matter of any sort, or to leave ash or house waste receptacles, boxes or barrel on any street, sidewalk, alley or parking in this city.

Section 2. Any person violating the provisions of this ordinance shall forfeit and pay a fine of not less than one or more than five dollars, which fine shall be collected as other fines are collected and paid into the City Treasury.

Persons who have complied with the terms of these ordinances are entitled to satisfactory services as to the removal of ashes, &c. Failure on the part of the ash collectors to make proper and satisfactory collections should be reported promptly to the City Engineer by telephone or mail. Undoubtedly some complaints are well founded, but some are caused by failure on the part of citizens to comply with the terms of the above ordinances to which their attention has possibly not been called.

It is the desire of the City Engineer and Committee on Streets to give the best possible service with the comparatively small sum appropriated for this purpose, and co operation rather than criticism will do much towards producing good results.

Chairman Committee on Streets.
